Subject: RE: EPA and TCEQ Remediation Contact

We are potentially interested in discussing remediation operations in the ship channel and marshes, given that we have assets in the area as well. Is there a central EPA contact that is overseeing this?

Hey Sherman,

What can I get for you?

David

Hey David. Sorry to bother you but we are looking for an EPA R6 contact for the following:

Do either of you have a contact or know who we should contact at EPA Region 6 to inquire about clean-up activities in the area (bayou) where the tank fire at ITC in Deer Park occurred last week? We are really interested in the remediation activities to commence.
